

# HARM REDUCTION STRATEGIES FOR YOUTH CANNABIS USE WEBINAR

*Joe Eberstein*

## OBJECTIVES

- Review use data and trends about youth cannabis youth.
- Define harm reduction strategies for youth cannabis use.
- Disseminate tools and resources for harm reduction strategies, including MAT for CUD.

## ABSTRACT

More States are allowing greater access to high potency cannabis products. The risk for dependence may increase in these locations. Harm reduction strategies can reduce the level of harm associated with greater availability. This session will discuss strategies that can be used to minimize harm and reduce health consequences. New data will highlight trends in use as well as discuss new developments in MAT for cannabis use disorder
