

AY2007-2008 Watson-Glaser Report

All Sections Combined: Comparisons to the Previous Semester Scores

The chart below indicates the average composite scores by semester. Because we are using the short form of the Watson-Glaser Critical Thinking Appraisal, only the composite score is considered valid. Comparisons may be made from spring semester to spring semester, fall semester to fall semester, and so on.

The following three charts offer the subscores for each semester in AY08 compared to the corresponding semester in AY07. These charts as well as the data by major and the composite average are shared with department chairs.

Watson-Glaser Analysis

Summer 2006 & Summer 2007 Mean Score Comparison

Watson-Glaser Analysis

Fall 2007 & Fall 2006

Mean Score Comparison

Watson-Glaser Analysis
