Family Hub Talking Points

Booth Library is excited to unveil the **Family Hub**, a dedicated resource designed to support our student parents. We understand the unique challenges of balancing academics with family life, and the Family Hub offers a haven to help students thrive.

- **Lactation & Infant Feeding Rooms (4416 & 3413):** Two dedicated lactation rooms provide a comfortable and quiet space for nursing or feeding. Additionally, 4000 Level space has a working sink.
- **Family Study Room (4418):** Collaborative study room offers a space for parents to focus while their little ones play.
- **Family-Friendly Study Space (BTC, 3000 Level):** An open study area lets students with young children work in a welcoming environment.

The Library is committed to supporting our students and stakeholders, particularly those who are also caregivers. The Family Hub provides a space for student parents to use library resources while fulfilling their roles as scholars and caregivers.

Draft Syllabus Statement
