

CORE Subcommittee on Pre-Health Students

10/30/2024

Attendance:

- I. Updates
 - a. Majors/Pathways inserted into MyEIU Checklist
 - i. App changes would need to go through Enrollment Management with consideration of unintended consequences as reported by Admissions counselors in the field
 - ii. No anticipated pushback on adding "pathway" as part of nomenclature; could just send to Brad Bennington and not need to go through CAA
 - iii. The easiest path may be to update program descriptions/names and add a Checklist item to force a choice of major to accompany the pathway
 - b. Orientation Reservation Form
 - i. Getting updates to majors pushed to Banner is a large project (Justin to work on this); importance of locking the term for the major to the term of entry rather than the current term when completing the form
 - ii. Changes to the form are easier than to the application even if less urgent
 - c. Videos Julie & Sam provided the script
- II. Major/Minor Database
 - a. It may be unclear that chairs are responsible (lot of chair turnover)
 - b. What training is needed?
- III. Future Meetings
 - a. 11/20 1435 NTR Annex at 3:00 pm
