We were in the news.

Pem also elected officers Tuesday. Cheryl Johnson was re-elected dorm president. Serving with her will be vice president Debbie Green, secretary Chris Wisowaty, treasurer Mary Byrne, historian Betty Budza, art chairman Gina Morgan, food chairman Mary Ann Rasmussen, program chairman Marilyn Johnson, and Women's Residence Hall Association representatives Karen Ford and Debbie Lynch.

Thomas and Pemberton were the top givers in the Circle K blood drive the last week in April. Eight per cent of the Thomas men gave, and 14.4 per cent of the Pemberton women gave. Let 'er drip, baby!

At Pem hall

Crown queen tonight

Crowning of Pemberton Hall's queen will highlight a "goozing" party to be held in the hall lounge tonight at 9.

Dorm residents are voting today to select the queen, a title which is based on service to the dorm.

Competing for the honor are Cynthia Davidson, Judy Fearheiley, Cheryl Johnson, Karen Saxon, and Cheryl Spears.

The party is designed as a sort of "ice cream social," with a wide variety of flavors of ice cream and toppings offered as refreshment. Tentative plans for entertainment include two skits, a violin solo, and a song-fest led by a group of Pem Hall girls on guitars.

Pem Hall residents and their dates are invited.

Pem queen

Gerry Ochs flings her arms around Judy Fearheily just after announcing her election as 1970 Pem Hall Queen. The announcement and presentation of a gold necklace and charm to Miss Fearheily highlighted a "goozing" party at

Pem Tuesday night. Residents, who had voted to select the winner of the title earlier that day, gave the new queen a standing ovation punctuated by a big "whoop," as one Pemite described it, when the announcement was made.

Pem's 4th floor yields history

by Becky McIntosh

Scaring freshmen and storage are just about the only things Pemberton Hall's fourth floor is used for any more, but it wasn't always so.

When Pemberton Hall was

Pem, when the rooms were used to house eight girls. The girls remained on fourth floor until Ford and McKinney were built and there was sufficient housing for them elsewhere.

Mrs. Wilson commented that

the fourth floor had always been "pretty spooky." Sometimes bats got in and scared the girls if the windows weren't closed tight enough.

AFTER the girls moved out when Ford and McKinney were built, the floor was no longer used for living quarters. Pem Hall girls used to keep their formals in a room there, and the Alpha Gamma Delta sorority held their meetings there before they obtained a house.

Now, through, it's used only for storage and sometimes for practicing the piano, which is located in the large, floor meeting room. "But," residents of Pem say, "no one goes up to practice after dark."

The floor, except in the completed part, is in very poor condition, and is rotting through in several places. No one except workmen are supposed to go up there any more.

Girls do, however, take the freshmen up there in sort of an initiation process. The standard procedure, according to one 4-year resident of Pem, is to take them up to the dark practice room and tell them one or more of the stories connected with the floor to "scare the heck out of them."

Pemberton Hall residents Brenda Hamm (seated) and Beth Heidbreder have an encounter with the fourth floor "ghost."

built in 1909 the top floor was left undivided into rooms either because it was to serve as an attic or because of lack of funds for completion. Later, when more housing space was needed, construction of rooms was begun.

ONLY about a fourth of the project was completed, however, and what remains now is a section of eight completed rooms and the framework of boards where the rest of the rooms should have been.

Mrs. Leota Wilson, maid at Pemberton from 1956-68, says that the completed rooms were used for the maids to live in as far back as she can remember until 1956, the year she came to
