CENTRAL MANAGEMENT SYSTEM

- The State of Illinois insurance plan is negotiated and directed by Central Management Services (CMS).
- Each plan, providers, and coverages offered, including costs may change annually July 1 of each year.
- Employees should refer to the annual [Benefit Choice Booklet](#) and the [Benefits Handbook](#) for more detailed information.
- You may also visit the CMS [Website](#) for additional resources and information.

HMO: HEALTH MAINTENANCE ORGANIZATION

- HMOs have their own network of doctors, hospitals and other healthcare providers who have agreed to accept payment at a certain level for services they provide.
- Members select a primary care physician (PCP) from a network of participating providers.
 - A PCP can be a family practice, general practice, internal medicine, pediatric or an OB/GYN physician.
 - The PCP will direct all healthcare services and will make referrals for specialists and hospitalizations.
 - When care and services are coordinated through the PCP, only a copayment will apply.
 - There are no annual plan deductibles
 - No coverage of any out-of-network care, except in a true emergency
- **Factors to consider:**
 - Cost of monthly premiums
 - Out-of-pocket costs
 - Using a PCP vs. choosing your own healthcare providers
 - The current health of the people you want to cover

**It is the plan participant's responsibility to become familiar with all the specific requirements of the HMO health plan.*

OAP: OPEN ACCESS PLANS

- OAP Combine similar benefits of an HMO with the same type of coverage benefits as a traditional health plan.
- Members will have three tiers of providers from which to choose to obtain services.
 - The benefit level is determined by the tier in which the health care provider is contracted.
 - Members can mix and match providers and tiers.
- Members have more freedom to see the health care providers they choose.
 - Employees do not need referrals from a primary care physician to see providers, but they may have to pay a different level of co-pay or coinsurance if they see providers outside of the tier specified by the insurance company.

****It is the plan participant's responsibility to become familiar with all the specific requirements of the OAP health plan.***

OAP: OPEN ACCESS PLANS TIERS

Tier I

- Offers a managed care network which provides enhanced benefits and requires copayments which mirror HMO copayments, but do not require a plan year deductible.

Tier II

- Offers another managed care network, in addition to the managed care network offered in Tier I and provides enhanced benefits. Tier II requires copayments, coinsurance and is subject to an annual plan year deductible.

Tier III

- Covers all providers which are not in the managed care network of Tiers I or II (i.e., out of network providers) and does not have an out-of-pocket maximum.
- Offers members flexibility in selecting healthcare providers but involve higher out of pocket costs.
- Higher plan year deductible and has a higher coinsurance amount than Tier II services.

PPO: PREFERRED PROVIDER

1. Quality Care Health Plan (QCHP) - Aetna PPO

- The State's self-insured health plan
- All claims and costs are paid by the State through a third-party administrator.
- Benefit enhancements are available by utilizing the:
 - Nationwide QCHP physician, hospital, ancillary services and transplant network.
 - Pharmacy network.
 - Behavioral health network.
- Each component has its own plan administrator

2. Consumer Driven Health Plan (CDHP) - Aetna PPO

- A high-deductible health plan which is available for active employees only
- Partners with a Health Saving Account (HSA)
- Employees choosing to enroll in the CDHP and an HSA, will receive a State contribution of one third of the deductible into their HSA account (\$533.34 individual or \$1,066.68 family).
- The HSA is only available to employees enrolling in the CDHP. Employees may only enroll in an HSA when choosing the CDHP.
