Accounting (ACC)

Accountancy is a dynamic, rewarding, and respected profession responsible for recording, reporting, and analyzing financial information. Accountants prepare financial statements, analyze financial data, audit financial records, assure that financial activities follow regulations, and provide tax planning and consulting services.

<https://www.eiu.edu/accountancy/>

Contact Information: Dr. Crystal Lin, cylin@eiu.edu

Business Administration (BUS)

Business Administration (ONLINE Only) provides a broad background in business including coursework in accounting, finance, management, management information systems, marketing, and operation and supply chain management. <https://www.eiu.edu/bsb/>

Contact Information: Dr. Ayse I Costello, aicostello@eiu.edu

Business Analytics and Information Systems (BAIS)

The BAIS major prepares students to design, develop, and manage business analytics projects and information systems within organizations. BAIS majors develop a foundation of business knowledge and skills that are complemented by more in-depth study of business analytics and information systems.

Contact Information: Dr. Crystal Lin, cylin@eiu.edu

Finance (FIN)

Finance professionals analyze and manage financial resources. Students who major in finance develop the knowledge and skills to determine how best to allocate business and personal funds, identify and act on profitable opportunities, use derivative securities to reduce risk, and prepare financial plans on behalf of individuals, businesses, and other organizations. <https://www.eiu.edu/finance/>

Contact Information: Dr. Crystal Lin, cylin@eiu.edu

Management (MGT)

Management professionals lead and coordinate people, activities, and systems to achieve organizational goals. Students enrolled in the management major develop the skills and knowledge needed to perform the functions of managers: planning, organizing, controlling, and directing. <https://www.eiu.edu/management/>

Contact Information: Dr. Ayse I Costello, aicostello@eiu.edu

Marketing (MAR)

Marketers create value by providing products to satisfy customer needs. Effective marketing is critical to all successful organizations. EIU Marketing majors develop critical thinking skills needed to develop products and services, set prices, communicate key brand features, and distribute products effectively.

Computer and Information Technology (CIT)

The Computer Information Technology program prepares technical professionals for applications of computer and information technology. Those professionals find careers in Information Technology (IT) or Information Systems (IS) in manufacturing, service, healthcare, education and government organizations. <https://www.eiu.edu/cit/>

Contact Information: Dr. Toqeer Israr, taisrar@eiu.edu

Construction Management (CMT)

The Construction Management program will prepare you to meet the challenges of becoming competent superintendents and project managers in the residential, commercial, and industrial arenas.

<https://www.eiu.edu/construction-management/>

Contact Information: Mr. J.C. Foley, jcfoley@eiu.edu

Digital Media Technology (DGT)

Digital Media Technology program emphasizes the study of processes and management of web development, visual effects, gaming, animation, simulation, video, and multimedia production. This program is designed to prepare technical or technical management-oriented professionals for employment in creative, advertising, and educational environments. <https://www.eiu.edu/digital-media/>

Contact Information: Mr. Jay Grabiec, jjgrabiec@eiu.edu

Engineering Technology (EGT)

The Engineering Technology program gives you the opportunity to experience education in a practical, hands-on way. You'll have close, continuous interactions with faculty as you begin building your career through projects, independent research, internships, and interactive design. <https://www.eiu.edu/engineering/>

Contact Information: Dr. Wutthigrai Boonsuk, wboonsuk@eiu.edu

Organization Development (ODL)

The Organization Development program (ONLINE Only) offers a Bachelor of Science degree with a major in Organizational Development that prepares students for positions as supervisors, project leaders, change agents, and trainers in a variety of organizational settings. <https://www.eiu.edu/od/>

Contact Information: Dr. Luke Steinke, lsteinke@eiu.edu

Bachelor of Applied and Art Science (B.A.A.S) in Applied Engineering

The EIU online applied engineering degree is designed to be flexible, allowing nontraditional students to complete their bachelor's degree in two years. It equips learners with leadership and technical management skills that will help them advance in their careers. <https://www.eiu.edu/appliedengineering/>

Transferable Courses Recommended: please visit <https://www.eiu.edu/appliedengineering/courses.php>
